LEAVES FOR THE WEST

Colonel Roosevelt Holds Conference With Brown and Others.

Oyster Bay, N. Y., Oct. 1.—Before his departure for the final round-up of middle western Progressives, Colonel Roosevelt held a prolonged conference with Progressive leaders, Walter Brown of Ohio, in which state the Progressive candidate is preparing to make final and desperate appeal on Oct. 17 and 18, was one of those who were present. Others were Governor Johnson of California, Oscar Straun, Frank A. Munsey, George W. Perkins, Senator Dixon, Bourke Cockran and Regis H. Post.

Mr. Roosevelt leaves New York at 3 p. m. today for Grand Rapids, Mich.

Probing Car Shortage.

Washington, Oct. 1.—Complaints to the interstate commerce commission of a serious shortage of freight cars in the middle and far west have brought about an investigation. It has developed that in Pittsburg, Cincinnati, Chicago, St. Louis, Kansas City and other large cities the congestion of freight is serious. Producers are complaining of the inability of the transportation lines to move their shipments promptly.

EGGS

(Chicago Post)

Eggs were once the pivot of jokes. They were supposed to be flung at bad actors. Today there are more bad actors than there are bad eggs.

Huades, eggs would be about as expensive as American beauties to pass over the footlights.

Eggs appear upon all menus. As a general thing they are partaken of either boiled, fried, poached or scrambled. It depends upon the egg whether it goes into a scramble or an omelet. To add interest to the menu, however, eggs are listed in many varieties. Eggs a la this or that are found on all bills of fare, and when you order one of these special dispensations the head chef scratches his brow and wonders how to fix them up. He takes all the scraps of ham, cold meat, left-over sauce and other things of that nature in the kitchen, and applies them about the eggs, planting the concoction on bits of toast that have undoubtedly seen better days.

Eggs are cornered every winter by wine gentlemen who put them in cold storage. Eggs from cold storage are not very good for hatching purposes, as the chickens have fur instead of feathers.

The ostrich egg is very large indeed, but as a table delicacy it is not to be recommended. The ostrich lays it in the sand last year and then goes away with a circus and forgets it.

NOT WELL ENOUGH TO WORK

Thousands of American girls and women are dragging out a weary existence in stores, mills, shops and factories with distressing weaknesses and derangements which are sapping their life away.

Each woman may find joy in living and be restored to vigorous health by taking Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills which has stood the test of time.

KENYON

And Ohio University Played A Tie Game

Athens, Oct. 1.—Ohio and Kenyon played to a tie here Saturday, 7 to 7. The honors were far from evenly divided, however, as Ohio lost the ball five times when within striking distance of the goal, twice in the second period on the 10-yard line, on fumbles, and three times in the fourth period, on the 5-yard line. Kenyon worked the forward pass successfully in the first two periods, while Ohio resorted to straight football. Throughout and at all times her plunging backfield worked brilliantly. Her line was weak. Kenyon scored in the second period and Ohio in the third.

Care of the Churn.
Always send and cool the churn before using. If the cream is too thick thin it down with a sufficient quantity of pure cold water until it has been reduced to proper churning consistency.

Housing Sheep.
Sheep are seldom troubled with tuberculosis because they are naturally fresh air cranks. It is not necessary to shut them up in a tight barn to insure best results.
